IMPORTANT REMINDERS

IMPORTANT: Some Specialty/Ambulatory surgery clinics bill independently from Medicare Partners providers/systems and may not honor Medicare Partners. At these non-participating providers, you still have Original Medicare A and B paying, but you will remain responsible for the balance due. **Before your visit, check with that provider's patient billing office to see if they have a financial assistance program of their own, which many do.**

Specifically, MHealth Fairview Ridges Specialty Clinic /Ambulatory Surgery, Fairview Maple Grove Ambulatory Surgery **DO NOT** honor Medicare Partners.

REMEMBER: Participating Medicare Partners healthcare providers/systems agree to accept the Medicare payment as payment in full for most Medicare A and B eligible services. They've agreed to waive co-pays and deductibles for Medicare covered services.

This list can change at any time without notice. Before making an appointment always call the billing office to make sure the facility is still accepting Medicare Partners. This is your responsibility to avoid being billed for services.

If you receive services that are not covered by Medicare A or B, then you will be responsible for the bill. This is also true if you receive services from a non-participating provider. Examples of non-covered Medicare A and B services are: Routine annual physical, ambulance services, nursing home care, durable medical equipment, diabetic supplies, routine eye and hearing exams, glasses, hearing aids, chiropractic services, outpatient prescription drugs and dental care.

If you are out of the area and in need of emergency care, you will have to rely on your original Medicare A and B coverage. If the attending physician and hospital will not accept what Medicare pays as payment in full, you will be responsible for any balance due.

Members are **advised and should** subscribe to a **Part D prescription drug policy**. For help in selecting one, call the Senior Linkage Line at 1/800-333-2433 X 2.
