

## Dear Friends,

Thanks to the commitment and compassion of our many supporters, partners, volunteers, and staff, we were able to provide over **16,000 older adults and their caregivers** with innovative services focused on supporting independence, empowering caregivers, connecting community, and serving compassionately.

**We could not have done this without you!**

People tell us that they choose Senior Community Services (SCS) because they trust us, we're affordable, or they have physical challenges keeping up their home like they used to. As one client stated, **'I'm able to stay in my home because of you.'**

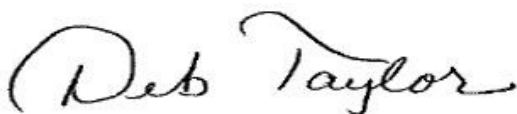

Some people aren't sure if mom or dad should stay at home or if they need more support. These decisions are tough. **We often hear how helpful it can be to have a neutral, impartial professional to help with these important discussions.** Senior Community Services provides social workers who assess these situations and help families navigate the options, taking stress off the caregivers.

Now think about how technology can be challenging even when you understand it. We know that having the ability and education to navigate newer technologies has become a necessity to fully participate in society. **And seniors unfamiliar with or without access to technology are more isolated than ever.**

We expanded our technology programs in 2022 in partnership with our senior centers and in 2023 we will continue to reach out to **underserved populations and communities that may have economic challenges** on top of language barriers to provide them with the tech tools and access to the internet that they need.

As you review our 2022 Annual Report and see the impact of our work, **please know that we are grateful for your compassionate and ongoing support.**

## In gratitude,

Deb Taylor

# 2022 IMPACT

**1,667**

older adults maintained independence through **HOME Program** services,

including:

**407**

seniors who received free, 1-on-1 **technology support & training**

Our team of licensed social workers supported:

**1,641**

**caregivers** in managing their own wellbeing while caring for their loved one

**1,288**

**seniors** in navigating community & health resources for their individual needs

**11,015**

individuals engaged in programming at our affiliated **Senior Centers**

**2,062**

**volunteers** gave over

**33,600**

**hours** of their time supporting our community's seniors

**708**

individuals accessed affordable healthcare through **Medicare Partners**

## Meet Our Community

The Pinegrees are aging in place at their home of over 30 years, thanks to the HOME Program, and regularly participate at our affiliated senior center in St. Michael.

Linda is now able to connect to loved ones and online resources after receiving a donated laptop, plus ongoing support & training.

Donna cares for her mother, Rhoda, with Alzheimer's. She works with our social work team to find support in her role. We were also able to donate a robotic therapy cat for Rhoda.

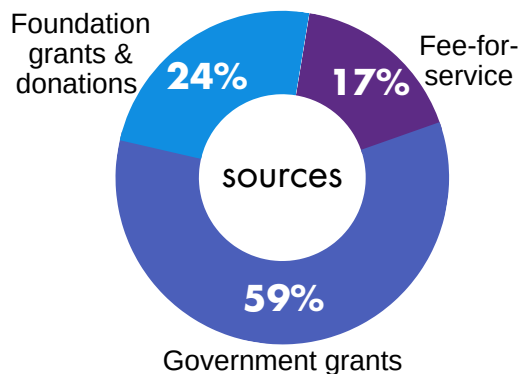

**16,319**  
total individuals served

A **20%** increase from 2021

### Funding

**\$2.2 million** budget

## Join Us

We rely on **YOUR** support to keep these services accessible to those that need them most.
